DIY Valentine Snack Robots

Valentine's Day is almost here and that means its time to start bringing in snacks for kids classroom parties! I made

over 20 of these for my son to take to his Kindergarten class for snack day and they were a huge hit!

Here are some awesome robots that you can make out of a juice box and other goodies and they are so extremely easy and fun to make! You can even make these for other occasions too such as birthday parties!

For a healthier alternative use little raisin boxes for the feet, organic juice boxes and applesauce for the head.

Supplies Needed:

- Pudding cups
- Smarties
- Hi-C Juice Boxes
- Googly eyes
- Sharpies
- Chocolate hearts
- Hot glue gun

Directions:

- Start with gluing the top of the pudding cup and placing on top of the Hi-C juice box (be careful not to place the glue on the part where the straw will go)
- Add the smarties for the arms and a heart on his chest

- Draw on a little cute smiley face on the pudding cup

Tip: I didn't have any Vanilla pudding cups for this project but they make a great base for drawing the face on!
